

Project Manager (gn) AI

(19017)

📍 Standort: Mülheim an der Ruhr 📄 Anstellungsart(en): Vollzeit 📅 Beschäftigungsbeginn: ab sofort

A job is more than just a job. It should be the right fit for you, challenge you, and offer fair compensation. We believe that too. That's why PAMEC connects you with companies that truly match your skills, goals, and ambitions. When you love your job, we've done ours right—and we've been doing just that since 1984.

For our well-known client, an innovative company in the energy sector, we are looking for a Project Manager (gn) AI

What Your Day-to-Day Work Will Look Like

- Lead AI and automation initiatives from initial concept through implementation and large-scale rollout, ensuring long-term adoption and measurable business value
- **Identify, evaluate, and prioritize** high-impact use cases across Supplier Quality, Procurement, related business functions, and multiple Business Areas, promoting standardization, reusability, and scalable solutions
- Manage **end-to-end project execution** by defining roadmaps, **building business cases, tracking KPIs**, coordinating resources, mitigating risks, and aligning stakeholder expectations while leveraging expertise in AI-driven business transformation
- Collaborate with international cross-functional and cross-business-area teams as well as external partners to translate business needs into practical digital solutions and successful real-world deployments
- Utilize hands-on expertise in AI and automation technologies to validate solution concepts, **support pilot projects**, accelerate **user adoption**, enable data-driven decision-making, and ensure secure, compliant, and responsible implementation.

What Makes You a Great Fit for the Role

- A completed master's degree in Engineering, Computer Science, Data Science, Information Technology, Business Administration, Industrial Engineering, or a comparable field, or an equivalent combination of education and professional experience
- Proven professional experience in project management, digital transformation, process improvement, automation, or similar areas within an international business environment
- Strong leadership and project delivery capabilities, combined with excellent stakeholder management and communication skills to successfully drive cross-functional collaboration and organizational change
- Solid knowledge of Artificial Intelligence, Generative AI, AI agents, workflow automation, and data-driven process optimization, with the ability to convert business requirements into practical and scalable digital solutions
- Practical experience in designing, testing, or implementing AI- and data-driven solutions, going beyond project coordination. Familiarity with technologies such as Microsoft Copilot, Copilot Studio, Power Platform, RPA, SQL, Python, and/or Snowflake is considered a strong advantage

- Excellent written and spoken English skills, paired with a collaborative mindset, strong analytical and organizational abilities, a passion for innovation, and the flexibility to travel internationally up to 25%.

Your benefits

- **Unbefristete Festanstellung** mit Übernahmeoption im Partnerunternehmen
- Vergütung GVP-Tarifvertrag mit Option auf **übertarifliche Zulagen, Urlaubs-/Weihnachtsgeld, betriebliche Altersvorsorge**
- **Prämienzahlung** "Mitarbeiter werben Mitarbeiter" bis zu **400 €**
- Urlaubsanträge/Zeitrachweise via App, Mitarbeitererrabatte für Online-Shops

Interested? We'd Love to Hear from You!
